24.	NPL Board reserves all the right to change any and every rules and NPL Board decision shall be final and binding on all.

Annexure A

NET RUN RATE (Ladies Team)

Net Run Rate Calculation Method

1. In a first inning team score 80 runs in 8 overs with run rate of 10.00 per over and the opponent team score 60 runs in 8 overs with run rate of 7.50 per over than the net run rate for the winning team will be +2.50 (10.00-7.50) and -2.50 (7.50-10.00) for the loosing team.
2. In a first inning team score 80 runs in 8 overs with run rate of 10.00 per over and the opponent team score 80 runs in 6 overs with run rate of 13.33 per over than the net run rate for the winning team will be +3.33 (13.33-10.00) and -3.33 (10.00-13.33) for the loosing team.
3. If any team is all out before the 8 overs then run rate will be calculate total runs divide by 10 overs. (e.g. Team score 60/10 in 6.3 overs than his run rate will be total runs divide by 8overs ie.60 runs/8 overs=7.50 run per over).
4. In a first inning team score 60 runs in 8 overs with run rate of 7.50 per over and the opponent team score 60 runs in 6 overs with run rate of 10.00 per over (ie.60/6) than the net run rate for the winning team will be +2.50 (10.00-7.50) and -2.50 (7.5-10.00) for the loosing team.
5. Run rate = total runs of the team divide by total overs.
6. Net run rate is the difference of run rate in the match between the two teams.
